# WHY COMMUNITY'S IMPLEMENT ENERGY PROGRAMS

## RESILIENCY & SUSTAINABILITY

### WHAT IS AN ENERGY PROJECT?

An energy project involves the installation or modification for improvements of an energy-efficient or renewable energy system.

### WHY DO IT?

Repurpose funds spent on utility bills to pay for critical infrastructure upgrades.

Average Annual Increase Since 2018

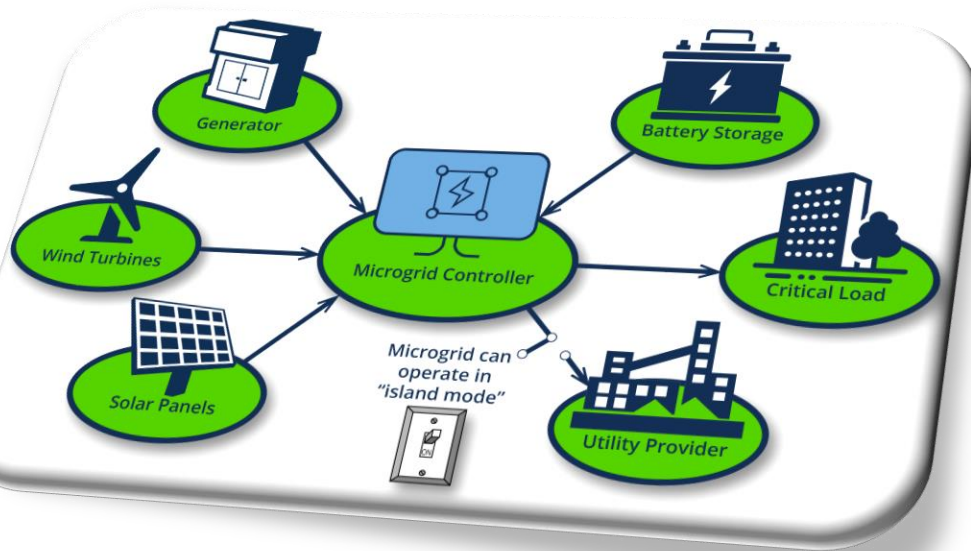

9%

**CA communities are at the greatest risk with aged infrastructure, impacted by wildfire/storm damage & PSPS, lacking renewable energy and sustainable funding for the future**

-Bureau of Labor Statistics <https://data.bls.gov/pdq>

# COMMUNITY MICROGRIDS

**Sitelogiq has designed several Community Microgrids under the Microgrid Incentive Program (MIP)**

**These multi-customer community microgrids serve counties, cities, special districts, tribal governments, schools, local businesses, and residents.**

Community and Multi-jurisdictional solutions that deliver sustainable and resilient power, increase electric reliability, advance energy resilient technology and regulatory action around clean energy initiatives, and increase access to clean, reliable energy delivery across the State of California.

Provide continuous critical water, public health & safety, and quality of life services day-and-night (even during PSPS events, power outages, emergencies and grid disruptions).

# SMART SUSTAINABLE FUNDING SOLUTIONS

## SitelogIQ delivers Budget Neutral Projects & Often Far Better!

With infrastructure evolving rapidly, unprecedented growth, affordability challenges, and the climate crisis, CA needs to prioritize clean public infrastructure options that support resiliency, choice, and embrace future changes in technology.

We **improve the lives of people** in our communities by making buildings more energy efficient, healthy, and functional, with a **lower carbon footprint.**

## We lead in advancing the CA Climate & Energy Policy Goals

SitelogIQ has long been committed to aligning your local government's infrastructure, energy & resiliency needs, and budget priorities **to reach your local Climate & Sustainable Energy Goals!**

# SITELOGIQ'S BEST VALUE CRITERIA

## ✓ **Guaranteed Fixed Cost**

From initial concept to final completion, SitelogIQ guarantees a lump-sum-fixed-priced agreement for program implementation.

## ✓ **Manufacturer Agnostic**

SitelogIQ does not represent or manufacture any product or equipment. This allows us to provide the “Best Solution” for our clients without trying to force our brand as part of the solution.

## ✓ **Financial Solutions**

SitelogIQ assists with multiple funding options including grant and rebate administration to ensure the lowest cost of capital that is available.

## ✓ **Safety**

SitelogIQ maintains the highest level of safety compared to other companies. Everyone deserves to come home from work healthy, happy, and uninjured.

## ✓ **Performance Guarantee**

SitelogIQ provides a performance guarantee and in-house measurement and verification on all energy savings performance contracts.

## ✓ **Sustainability**

SitelogIQ provides environmentally preferred solutions across all our service offerings to help local governments meet their sustainability goals.

***SitelogIQ would be honored to be your Community Resiliency Partner!***

***Bring your Community Closer to Energy Independence!***
